Milizid

SANITARY CLEANER AND LIMESCALE SOLVENT

AREA OF APPLICATION

Suitable for the effective cleaning of all acid-resistant materials. For hygienic cleaning of all sanitary rooms and bathrooms. A hygiene certificate is available for the particularly sensitive area of cleaning the bathtub. Applicable for ALL cleaning methods.

APPLICATION

When cleaning the toilet bowl, apply MILIZID concentrated under the edge of the WC bowl, work with a toilet brush and rinse after a short reaction time (max. 5 minutes).

Note: Completely turn up the toilet seat before the application. Pre-soak joints. Rinse with cold, clear water.

Maintenance cleaning:

Manual and mechanical cleaning of acid resistant floors and walls: 0.25 % to 0.5 %

Manual cleaning of acid-resistant inventory: 0.25 % to 2 %

Intermediate and basic cleaning:

- Intermediate / post construction cleaning: 10 % up to concentrated; 10 % max. on granite to remove cement residue.
- Basic cleaning: 10 % up to concentrated.

PRODUCT CHARACTERISTICS

- Less effort, longer effect
- With the special flow-off, lime scale and dirt blocking effects
- RK-listed (0.25 % to 100 %)
- Ideally suited for soft-foam cleaning
- Removes lime scale, cement residue, rust, urine, skin oils, lime soap, and cosmetics/cream residue within seconds
- Leaves high gloss surfaces without polishing
- Protects chrome, plastic surfaces, acid-resistant tiles, enamel in accordance with DIN ISO 2722 under normal conditions of use
- Five attractive fragrance creations to choose, MILIZID – The original with a proven deodorizing effect
